

P-III Associates Archeological Internship Program 2011

This Internship Program provides an exploration opportunity for undergraduate and graduate students interested in pursuing a career in the field of archeology. In 2011, interns will be given a chance to participate on archeological field excavations in Nevada. Interns will be exposed to a wide array of field techniques and the intricacies of professional excavations. This work experience will assist interns with building their resumes in the field of archeology.

Duration and Benefits

The internships will have a maximum duration of 90 days. Interns will be expected to participate on the same schedule as the professional field crews. Lodging and food reimbursement will be provided along with a small monthly stipend.

Particulars

Applicants need to be in sufficient physical condition to participate in field activities. Some of the tasks involve physically intense activity, such as shoveling and walking long distances.

There is no guarantee of a job at the end of the internship.

Institutional Credit

P-III Associates does not offer course credit for internships, but will gladly certify work/study performed and provide evaluations if students wish to arrange for credit through an academic institution.

Submission Requirements

All applicants for internships must fill out this form completely and submit it with the following:

1. A resume or curriculum vitae that includes educational information, previous experience, publications or presentations, awards, scholarships, honors, etc.
2. Contact information for two to three personal references including one professor or instructor.
3. A one to two page statement (300-500 words) of why you are seeking an internship with P-III Associates and explaining how such an internship might fulfill your academic and/or professional goals.
